I am a Hong Kong based multimedia production artist. Mainly working on Computer Graphics (CG) related media production. I also work as videographer, video editor and event co-operator in the past few years. Meanwhile, I am also a freelancer mainly working on 2D and 3D animation, infographic advertisement video etc. Working in a large organization in the past 4 years, one of my strength is to communicate and work with different departments and offices independently, working on different challenging projects and got great feedback from clients.
